

# MyLab & Mastering - Made for This Moment

---

Reaching every student,

when the world feels upended,

when we're farther than nearer,

can feel impossible.

MyLab and Mastering are made for this moment.

Giving you the tools to teach your way,

with the content you've always relied on,

to meet students where they are and then take them further.

We were there then,

we're with you now,

to support you at this moment and the next.
